Jl Ciganitri Mukti, Kabupaten Bandung, Jawa Barat

I am Wahyudi Khoeris Salimi, an Information Systems student at Telkom University, with a great interest in the IT field. I have expertise in software development, including backend, frontend, and mobile, which I have applied in various projects. In addition, I also have knowledge of Linux administration and cyber security which I consider important to improve the security of IT systems. My big goal is to become an important and influential contributor in IT development in Indonesia. I continue to learn and try new things, currently focusing on learning the Javascript/TypeScript programming language. I am very enthusiastic about being involved in IT projects that are challenging and have a big impact on society. With tireless enthusiasm, dedication, and continuous learning and development, I am confident that I can achieve this goal
